

# Andy Timmons

## TONE BIGGER THAN TEXAS

### LONDON CALLING AUSTIN...

Andy Timmons is Texas' hottest new guitar export. Possibly the most expressive and stylistically gifted guitarist ever to come from the Lone Star State. Like all Texas guitar heroes, Andy is fanatical about tone. Whether he's dialing "long distance" for the ultimate Brit tones or "calling local" for classic American cleans and vocal leads, he's discovered the world of tone here at Mesa.

**I've searched for years for my ultimate amp...now I have two!!**

With the combination of the Lone Star and the Stiletto Deuce II, I can achieve any tone on my new record and so much more. I've never had so many compliments on my tone.

With my **Stiletto Deuce II**, every nuance and subtle dynamic comes out easily and clearly with amazingly rich harmonic content... completely responsive! While my **Lone Star** gives me the most gorgeous clean to the fattest lead tone ever! I run these amps through Mesa 2x12 and 4x12 Rectifier cabinets, which are the only cabs I'll use, live or in the studio, they are absolutely the best! This is the first amp rig I've used that gives me everything I'm putting into the guitar!!

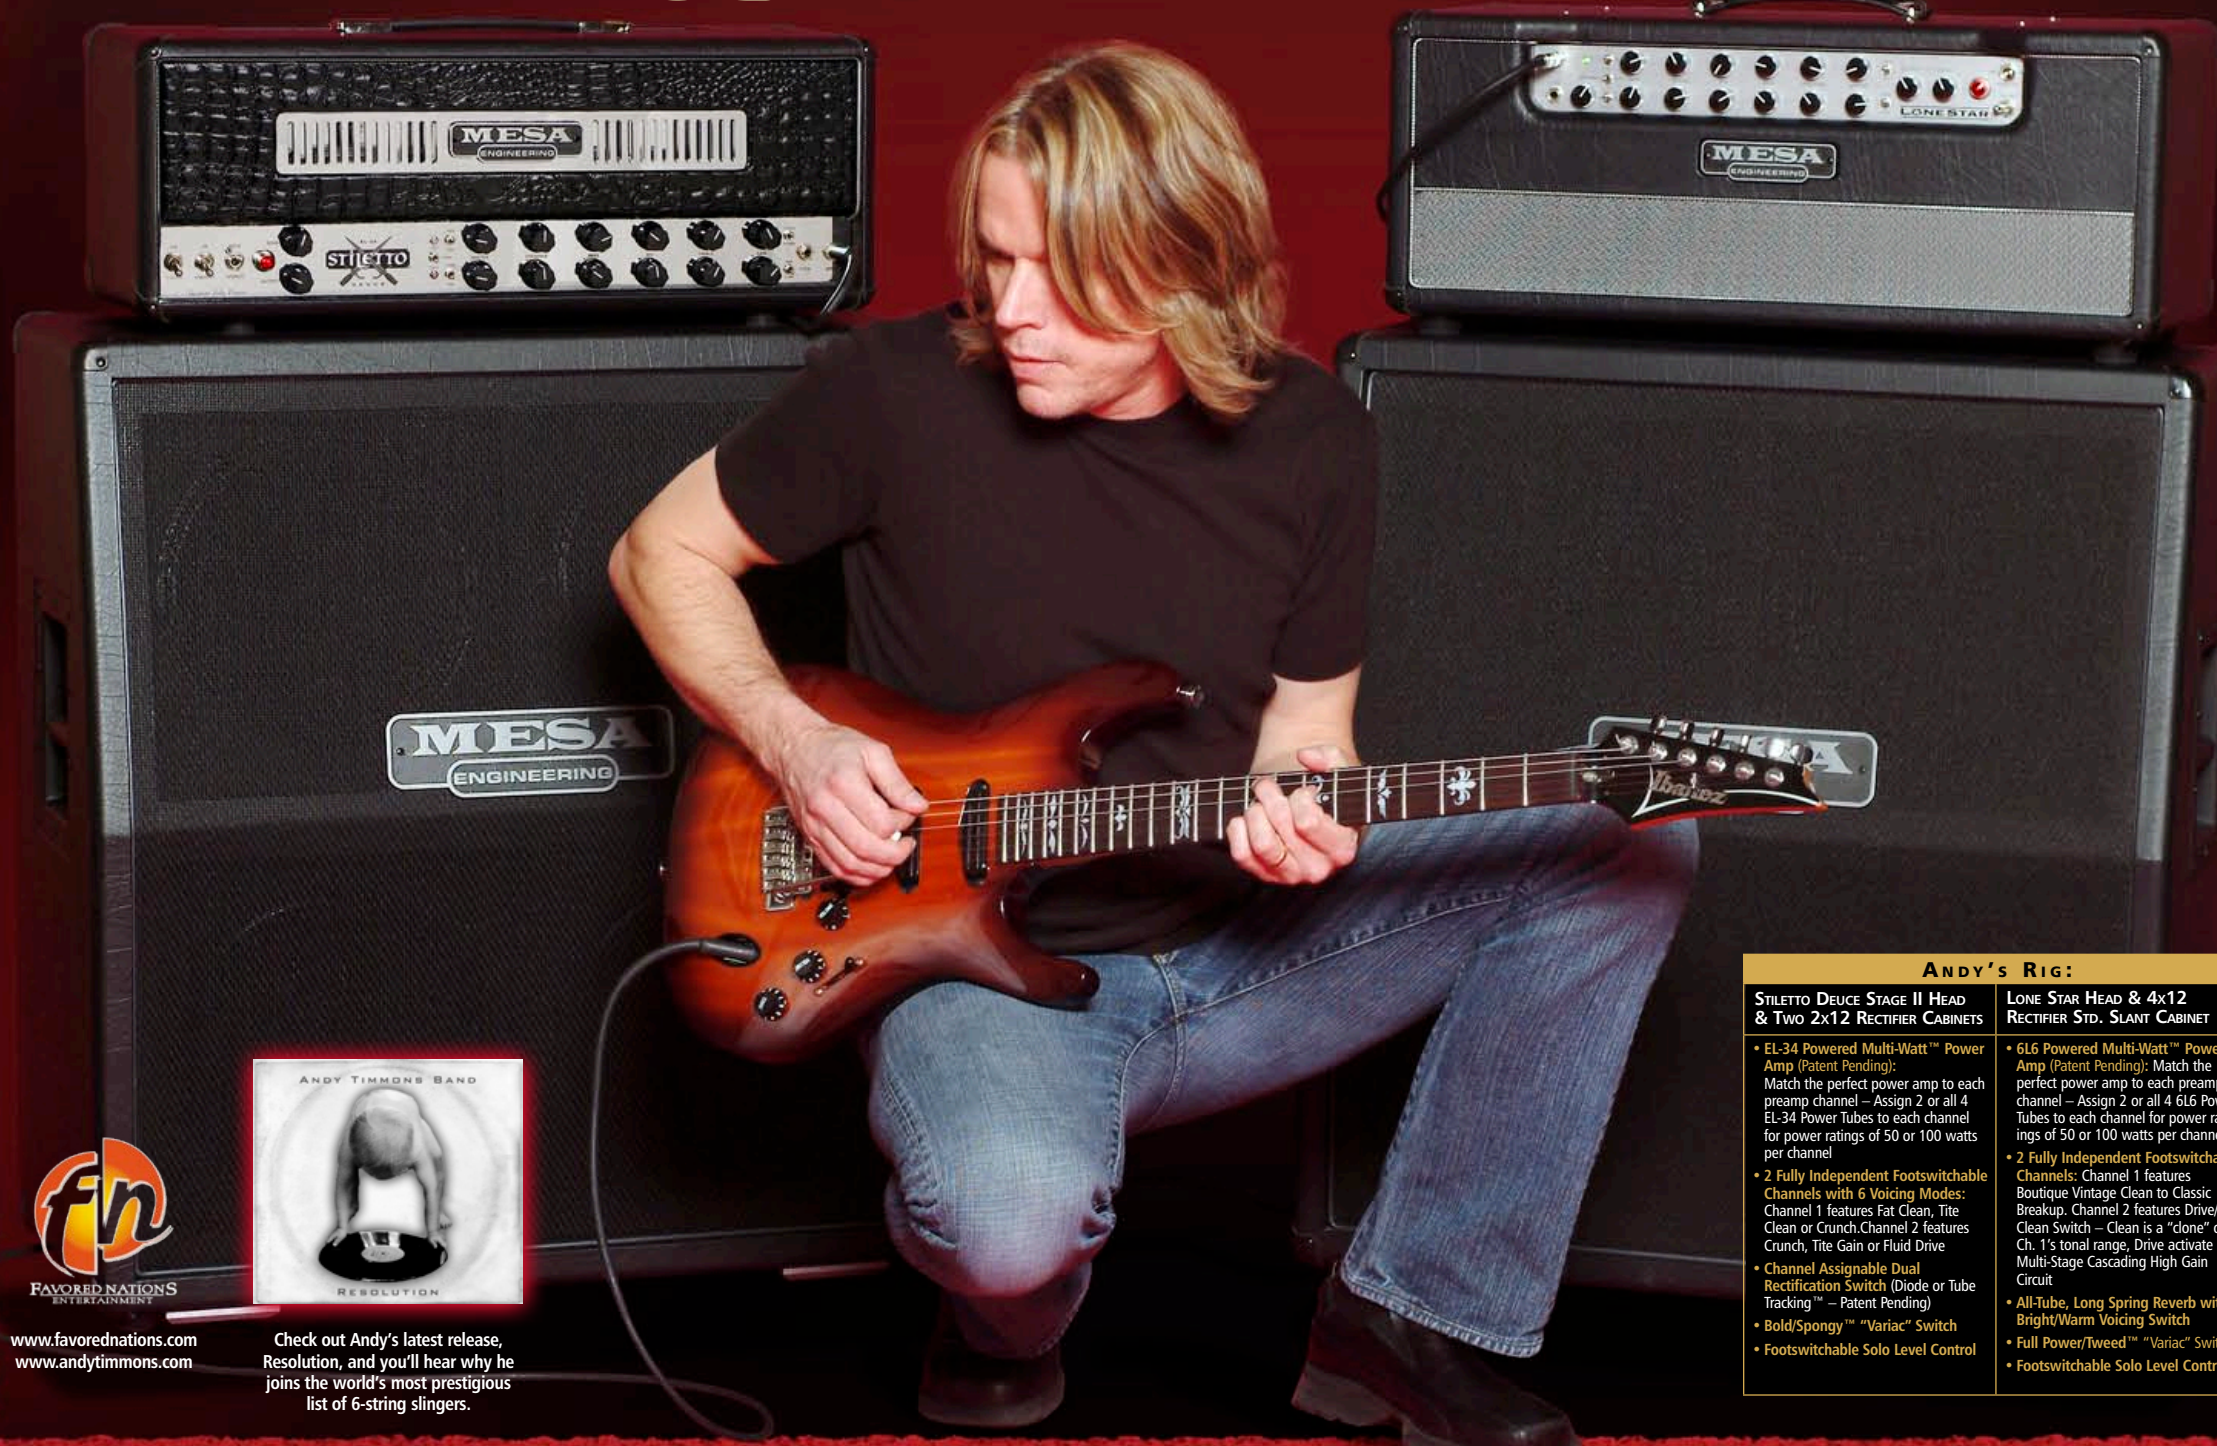

I've never been happier with my tone!! Thanks Randall Smith and all at Mesa Boogie! ”

### NEW!! STILETTO ACE 50 WATT COMBO & HEAD

Play it at your nearest Mesa Boogie Dealer

1317 Ross St., Petaluma, CA 94954
